

VISIONEERING
WICHITA

Cyber Tech Council Notes August 6, 2009

Attendees: Everett Kimball, Randy Roebuck, Jake Fisher, Diane Longfellow

City Arts Tech Studio Update

Randy reported that WATC has some iMacs and furniture that can be donated to the tech studio. John also has IBM pcs that can be used. With this equipment available we might consider using the grant monies on software rather than hardware.

Randy met with the Mac Users Group. They are interested in helping set up the lab. We need to find out which room we'll have and when it is available then set a work day in September. Once this is done we can determine what else is needed.

WATC has a 501 (c)3 college foundation that can accept donations for the tech studio. Randy would like to move the grant monies from the Wichita Educational Foundation to this 501 (c)3. Randy would bring expenditures before this group for approval. There were no objections from those present. Diane will check with Suzie about moving the money.

CityArts Tech Studio will be the name for the room. This will be the name used in marketing.

Next Meeting

September 3, 5:30 p.m., City Arts
