

What's your dream for Wichita?

PART
2

- Protect our environment?
- Revitalize our neighborhoods?
- Optimize our health and well-being?
- Strengthen our local economy?

Make them all come true for Wichita.

Parks, Recreation, and Open Space provide all kinds of benefits – social, environmental, health, educational, and economic – to both individuals and communities. Come find out how in the second of a five-part speaker series.

Share YOUR DREAM for Wichita's Parks, Recreation, and Open Space for the next 20 years.

Tuesday, April 24, 7:00 p.m.

WSU Metroplex, Lowe Auditorium, 5015 E. 29th St.

Karen Mumford, PhD

Dr. Karen Mumford is a faculty member and researcher in the Department of Environmental and Occupational Health

in the Rollins School of Public Health at Emory University. Much of her current work focuses on the health and social benefits of parks and open space.

Improving Community Health Through Parks and Open Space

Parks, Recreation and Open Space (PROS) positively impact the health and livability of a community. Dr. Karen Mumford will show us how PROS resources are essential to our health and well-being — from providing places for increased physical activity, to filtering pollutants from the air and water, to strengthening social connections within neighborhoods. Come “Dream in Green” for Wichita today and for our children and grandchildren tomorrow.

K.T. Wiedemann
Foundation

Funding for Dream in Green provided in part by Kansas Health Foundation, Wichita, Kansas, a philanthropic organization whose mission is to improve the health of all Kansans. Additional support provided by the Wichita Park Board and The City of Wichita.
